MAGELLAN™ 800i

DATALOGIC

1D AND 2D READING CAPABILITIES

The Magellan™ 800i omnidirectional presentation scanner is a versatile data collection tool for many applications. It uses Datalogic's latest digital imaging technology to provide intuitive and fast reading of 1D and 2D bar codes as well as supporting more advanced features like image capture and EAS tag deactivation. Despite its small size, the Magellan 800i reader provides big performance and reliability along with a rich feature set to provide excellent value in virtually any data collection system.

ILLUMIX™ TECHNOLOGY

The Magellan 800i reader uses third generation Illumix™ intelligent illumination technology to optimize light levels for automatically reading bar codes from mobile phones and for capturing images. Illumix technology also provides incredible motion tolerance, exceeding other 2D scanning solutions, enabling both 'sweep' and 'presentation' style scanning techniques.

SMALL AND COMPACT SCANNER

When space is limited but high performance is required, look no further than the Magellan 800i reader. Its compact size and footprint make it the ideal solution for space-constrained environments. Its precise imaging scan volume is perfect for hands-free scanning in confined spaces and helps reduce accidental misreads of items caused by stray laser scan lines, improving productivity and customer satisfaction. For large, heavy or awkward-sized items, the Magellan 800i reader can easily be picked up for handheld use because of its small, ergonomic enclosure.

GS1

DATALOGIC 5 YEAR WARRANTY

FEATURES

- Aggressive performance on 1D and 2D codes increases productivity
- Powerful Advanced Data Editing for custom host output
- No moving parts for improved reliability
- Illumix™ intelligent illumination technology for reading bar codes from mobile phones or laptops
- Ergonomically designed for hands-free or handheld operation
- Small footprint for easy installation into space constrained applications
- Precise imaging scan volume eliminates misreads caused by stray laser scan lines
- Configurable image capture mode to optimize host upload time
- Checkpoint Systems EAS and Interlock compatible
- EASEOFCARE Service Plans offer a wide range of service options to protect your investment, ensuring maximum productivity and ROI

INDUSTRY-APPLICATIONS

- Retail: Point of Sale, Mobile Marketing Capabilities, Age Verificiation, 2D Bar Codes
